

6. Have both a privacy policy and ethics policy in place within their organization  
Consultants meeting these requirements shall be certified as "OpenEMR Certified Consultants" and will have the right to use the official certification logo on their website and within their marketing and sales material.

Certification will be valid for one year and consultants will be required to re-certify each year and meet the requirements for certifications in place at the time they are seeking certification.

Organizations seeking OpenEMR Gold Certified status must meet all of the requirements in place for individual consultants and must have at least one OpenEMR Certified Consultant on staff during each certification period.

Further information on certification can be obtained by emailing our certification
